#### WOMEN IN MEDICINE.

There Are New Four Thousand Five the United States.

women in the medical profession of England, it has been even more so in the United States,

Twenty-five years ago, says the Young Woman, there were 500 fedy dectors in practice in the states; to day there are 4550—one in 15,000 of the population. Among these are a few differential. worth \$5,000 a year, and she is one; many who carn as much.

#### THE JAPANESE ARMY.

To Consist of Three Separate and Independent Commands of Four Divisions Each.

The Ostasiatische Lloyd states that at the end of the year the Inpunese army will consist of three chief com-mands, the cast, the middle and the west, instead of the number of small le dependent commands which previously existed. This will be apart from the guards, who will still remain under the direct command of the mikado. Each chief communit will consist of four visions, making, with the division guards, 13 divisions in all. The the visions will consist of 26 brigades of i artillery, with 70 field and mounted batteries, these to be strengthened next year to 117 batteries, formed in 30 groups of three batteries each; 12 battalions of pioneers, consisting of a companies, to be increased later to companies; 13 train battalions, of two companies each, and one railway and one telegraph battalion, cach of three companies. In addition to the 12 daysions, there are three reciments of coast and two battalions of foot artillery. The atmost companies of feet army up to its full strength is from 15,000 to coaten but double the number could easily be obtained. The troops mention of form obtained. The troops mention d form only the line with the emers; in non-

### COSTLY FRUIT IN ENCLAND.

-Startling Statement About Big Prices.

At a formers' club in Devotebles, England, not long since, in experience gardener in the employ of one or the nobility made the statement that the income from ten acres covered with glass beneath which early vegetable

fruit, and where earn cannot be prove fruit, and where corn cannot be known extremely fancy prices are paid for extra early fresh fruits and westalles. A dollar a pound for strawberries and 55 cents apiece for encumbers are only ordinary prices for these promets when put upon the market searly. Early fruits and vegetables bring tancome returns in large cities in any country.

A Romantic Career.

The recent death in halv of Gincoms Naretti ended a most remarkable career. The son of poor italian parents. Naretti learned the trade of a carpenter, and went to Africa during his country's early occupation of that continent. There his trade stoot having one stead. He attracted the air sition Emperor John of May tota, for whom he boilt a throre, called the tipous of Solomon. It was a modest wooden affair, but it eveited the admiration and wonder of the ducky knee. Later for Emperor Menclek he innit a rayed palace, and was then made a core of minister of public works. He married an English woman, got rich and lived in a palace of his own.
